

TANVAY SONI

QA Engineer

tanvaysoni90823@gmail.com | +91 9575991460 | [LinkedIn](#) | [GitHub](#) | [Indore, Madhya Pradesh, India](#)

PROFESSIONAL SUMMARY

Quality Assurance Engineer with hands-on experience in functional, regression, integration, and exploratory testing across healthcare and nonprofit-sector software projects. Skilled in test case design and documentation, defect triage with clear reproduction steps, API testing, and building automation scripts using Selenium and Playwright with Python and Java. Experienced leading QA efforts across multiple concurrent projects within Agile/Scrum teams, partnering with automation teams to improve automation coverage, supporting certification and compliance validation, and proactively communicating testing status and quality risks to developers and stakeholders.

TECHNICAL SKILLS

- Manual Testing: Test Case Design, Test Plan & Documentation, Functional Testing, Regression Testing, Integration Testing, Exploratory Testing, Smoke & Sanity Testing, UAT Support, Defect Life Cycle Management & Triage, SDLC/STLC
- Automation Testing: Selenium WebDriver, Playwright, Python, Java, Page Object Model (POM), Cross-Browser Testing, Browser Automation, Automation Coverage Improvement
- API & Mobile Testing, Test Management: Postman, TestRail, Zephyr, Jira, Confluence
- Methodologies: Agile, Scrum, Sprint Planning, Stand-ups, Retrospectives, Certification & Compliance Validation, Accessibility Testing, Cross-Functional Collaboration
- Programming & Cloud: Java (JDK 17+), Python, OOP Concepts, AWS (EC2, S3, IAM, VPC, Lambda, DynamoDB, SQS)
- Version Control: Git, GitHub

PROFESSIONAL EXPERIENCE

47 Billion Information Technologies Pvt Ltd

Feb 2026 – Present

Indore, India

QA Lead (Full-Time) – June 2026 – Present

- Lead QA for three concurrent projects under Housing Works, a nonprofit organization — eI Care, Grants Portal, and Auctions — executing functional, regression, integration, and exploratory testing across services and partner-facing features.
- Own test planning, test case design, and test documentation across multiple product teams, maintaining consistent QA standards and triaging defects with clear reproduction steps to drive timely resolution.
- Coordinate manual and automation testing cycles, providing well-structured manual test cases as blueprints for automation to drive measurable improvements in automation coverage, managing test execution in TestRail/Zephyr and tracking defects in Jira.
- Perform API testing using Postman to validate backend services and ensure data integrity across integrated systems, supporting certification readiness and compliance validation documentation.
- Collaborate with developers, product owners, and stakeholders during Agile ceremonies — sprint planning, stand-ups, and retrospectives — to align QA deliverables with release timelines, proactively communicating testing status, blockers, and quality risks.

QA Engineer (Intern) – Feb 2026 – June 2026

- Worked as QA Engineer on CAVO HEALTH, a live healthcare-domain project, executing functional, regression, integration, and exploratory testing across the SDLC.
- Designed and maintained clear, reusable test cases and test documentation for functional, regression, and API testing; identified, logged, tracked, and verified defects in Jira with clear reproduction steps.
- Built initial automation test scripts using Selenium and Playwright with Python and Java, structuring manual test cases as blueprints for automation to streamline regression testing and improve automation coverage.
- Participated in Agile ceremonies including sprint planning, stand-ups, and retrospectives, contributing quality perspectives and supporting test documentation and onboarding materials for cross-functional teams.

PROJECT

Student Exam Notes & Problem-Solving Platform — Educational Web App

- Built a full-stack educational platform that helps students log, organize, and revisit notes and problems encountered while studying for exams and tests.
- Tech Stack: React, FastAPI (Python), Supabase (PostgreSQL, Authentication).
- Designed RESTful APIs with FastAPI and implemented real-time data storage and auth using Supabase.
- Focused on responsive frontend UX, backend API design, and database structuring.

CERTIFICATIONS

- AWS Academy Graduate – AWS Academy Cloud Architecting (60 Hours) – Issued June 30, 2025
- AWS Academy Graduate – AWS Academy Cloud Foundations (20 Hours) – Issued June 18, 2025
- AWS Cloud Clubs Generative AI Camper – Issued by AWS Community

EDUCATION

Medicaps University, Indore – B.Tech, Computer Science CGPA: 7.66 / 10	2022 – 2026
Emerald Public School, Khategaon – 12th (MP Board) Percentage: 86 / 100	2021 – 2022
Emerald Public School, Khategaon – 10th (CBSE) Percentage: 62 / 100	2019 – 2020
